PROFESSIONAL SUMMARY

Frontend Developer with 2+ years of experience building scalable and high-performance user interfaces using React.js, Next.js, JavaScript, and Tailwind CSS. Skilled in creating responsive UI components, implementing server-side rendering (SSR), optimizing frontend performance, and translating Figma designs into production-ready interfaces. Experienced in building modern web applications with strong focus on user experience, accessibility, and maintainable component architecture.

TECHNICAL SKILLS

- Frontend:** React.js, Next.js, Redux Toolkit, Angular, Tailwind CSS
- Languages:** JavaScript (ES6+), TypeScript, HTML5, CSS3, C++
- UI Development:** Responsive Design, Component Architecture, UI Optimization
- Backend Familiarity:** Node.js, Express.js, REST APIs, JWT
- Databases:** MongoDB, MySQL
- Tools:** Git, GitHub, Postman, Netlify, Vercel
- Core Concepts:** SSR, State Management, MVC Architecture, Performance Optimization

EXPERIENCE

MERN Stack Developer

Marktime Technology Solutions Private Ltd.

Mar 2026 – Present

Jaipur, India

- Developing full-stack web applications using MongoDB, Express.js, React.js, and Node.js.
- Building scalable RESTful APIs and integrating them with dynamic, responsive frontend interfaces.
- Designing and maintaining modular, reusable components to improve development efficiency and code quality.
- Collaborating in Agile teams to deliver high-performance applications aligned with business requirements.
- Optimizing application performance and ensuring secure authentication and data handling practices.

Frontend Developer

Comfygen Private Limited

Aug 2024 – Jan 2026

Jaipur, India

- Built scalable and reusable UI components using React.js and Next.js for multiple client-facing applications.
- Improved frontend performance by **35%** using Server-Side Rendering (SSR), lazy loading, and optimized state management.
- Integrated **100+ REST APIs** to enable dynamic dashboards and real-time data rendering.
- Translated Figma designs into pixel-perfect, responsive UI components with cross-browser compatibility.
- Collaborated with backend developers and designers in Agile sprints to deliver production-ready features.

Frontend Developer

Pizone Infotech Solutions

Oct 2023 – Jul 2024

Jaipur, India

- Developed responsive trading platform interfaces using Angular and modern JavaScript frameworks.
- Implemented secure frontend authentication flows integrated with JWT-based backend APIs.
- Optimized UI rendering and state handling to improve overall user experience and application responsiveness.
- Built admin dashboards for analytics, reporting, and transaction monitoring.

PROJECTS

KyaKhanaHai – Smart Recipe Recommendation Platform

Personal Project

📅 2025

📍 React.js, Node.js, MongoDB

- Developed a MERN-based recipe recommendation platform allowing users to discover recipes using available ingredients.
 - Implemented intelligent ingredient-matching logic for personalized recipe suggestions.
 - Built responsive UI with multiple themes (Light, Dark, Desi, Minimal).
 - Added multi-language support (English, Hindi, Hinglish) for broader accessibility.
 - Integrated global recipe APIs and YouTube tutorials for step-by-step cooking guidance.
 - Implemented mood-based and cooking-time filters to enhance user discovery experience.
-

On-Demand Grocery & Essentials Delivery Platform

Client Project | Live Demo

📅 2024

📍 Next.js, MongoDB

- Built an SEO-optimized e-commerce frontend using Next.js with Server-Side Rendering.
 - Implemented real-time order tracking interfaces integrated with Socket.io.
 - Optimized frontend performance through code splitting and lazy loading.
 - Created reusable UI component libraries for scalable product development.
-

Verified News Platform

Personal Project | Live Demo

📅 2023

📍 React.js, Node.js

- Developed a news aggregation platform with dynamic UI rendering using React.js.
 - Implemented optimized data fetching from REST APIs for improved user experience.
-

MediDoc – Multi-Vendor Medicine Delivery Platform

Personal Product | Live Demo

📅 2024

📍 Next.js

- Built a responsive healthcare marketplace frontend supporting pharmacies, labs, and doctors.
 - Implemented secure authentication UI flows and role-based dashboards.
 - Designed scalable UI components for product listings, orders, and vendor management.
-
